(CLIENT NAME HERE) PATIENT-SPECIFIC PROFILE ©

# PROCEDURE "TO DO" LIST (DIABETES)

AS IDENTIFIED FROM MEDICAL DATA

*This is a Patient-Specific profile listing Procedures to perform. The Procedures have been selected from therapy related rule sets. The Patient's Primary Care Physician uses this profile to schedule Procedures necessary for screening and monitoring of the Patient's therapy. Although this is only an example, various rule sets can be run on the integrated Medical/Pharmacy data to identify opportunities for improved Patient care.*
